

telesites

Focused on the
future

2017 Annual report

About the company

Telesites is a Mexican company that builds, installs, maintains, operates and sells various types of passive telecommunications infrastructure—towers and support structures, physical spaces and other non-electronic elements. With more than 15,000 towers spread across the nine regions in Mexico and Costa Rica, Telesites is the largest tower operator in Mexico, and the second largest in Latin America.

Faced with a steadily growing demand for voice and data services and rapidly evolving telecommunications technology, carriers must continuously expand the infrastructure used for providing their services. This means a strong growth potential for Telesites.

2017 was a year of growth and achievements for Telesites, primarily in Mexico: clients were co-located in more than a thousand towers and 815 new sites were added to our portfolio. Through these facilities, we are able to constantly offer new locations in both urban and rural zones, building interest in our infrastructure among current and prospective clients. Telesites reiterates its commitment to value generation for our shareholders through top-quality services.

To our shareholders

Mexico City, April 11, 2018

**To the General Shareholders' Meeting
and Board of Directors
Telesites, S.A.B. de C.V.**
Present

In accordance with article 44 section XI of the Mexican Securities Market Act, in correlation with article 172 of the General Business Corporations Law, and in my capacity as Chief Executive Officer of Telesites, S.A.B. de C.V. (the "Company" or "Telesites"), I am pleased to present this report on the Company's operations during the fiscal year ended December 31, 2017.

Economic overview

The global financial climate was less volatile in 2017 than it had been the year before, although there were some moments of uncertainty such as the renegotiation of the North American Free Trade Agreement, inflation and interest rates in the United States and Mexico.

The U.S. economy grew 2.3% during the year, spurred on by a 6.7% increase in consumer durables that was helped by higher real wages and low unemployment, along with a 3.2% increase in private investment. The Federal Reserve continued its monetary policy normalization, consisting of a 75 basis points hike in the benchmark rate during the year, to end at 1.50%, on expectations that the strength of the domestic economy and the tax reform would drive prices higher.

In Mexico, Gross Domestic Product grew by 2.0%, slightly less than in 2016. The primary and service sectors were able to offset a modest decline in industrial activities, resulting primarily from lower oil production. At the same time, a 3.8% increase in formal employment and a 7.5% rise in remittances in peso terms favored a growth of more than 3% in domestic consumption. Inflation reached 6.8% in the year, driven by higher prices on natural gas and gasoline, as well as food.

The peso gained 5.2% in value against the dollar in 2017, closing at Ps. 19.70, after devaluing as far as Ps. 22.00 at the start of the year.

5.61% growth in the portfolio of new towers integrated to revenues (760 new towers in Mexico and 55 in Costa Rica)

Key financial data

2017 Financial and operating highlights

Portfolio at the close of 2016	14,519
New sites built	815
Total portfolio 2017	15,334
Tenancy ratio	1.126
Total revenues (Ps. million)	5,855.3
Tower rent revenues (Ps. million)	3,812.3
EBITDA (Ps. million)	3,485.3
EBITDA margin	59.5%

Total towers in Mexico
and Costa Rica

15,334

*EBITDA grew 14.3%
in the year, and the
margin was 59.5%*

Mexico's trade deficit shrank in the year due to a boost from exports to the United States, which rose 8.1% and offset an increase in the oil deficit, which reached US\$18.40 billion in 2017. Meanwhile, Banco de México continued its restrictive monetary policy in an effort to control inflation, raising the benchmark rate five times in 2017, from 5.75% to 7.25%.

The country's manufacturing platform, fundamental to its exports, expected investments in the energy sector in the coming years, and in infrastructure, and expectations of a reasonable outcome in the NAFTA renegotiations, placed the country on stronger footing to face internal and external challenges, although the possibility of political uncertainty might affect the outcome.

One of last year's main events for the telecommunications industry was the start of deployment of the Red Compartida project, which targets an initial coverage of 30% of the population by March 31, 2018. This will increase the demand for telecommunications infrastructure over the next five years, in which the final goal is to cover 92.2% of the population.

Report on operating and financial results

The following are my comments on the most important figures contained in the financial statements as of the close of 2017, which are attached to this report, including the opinion of the External Auditor.

At the beginning of 2017, Telesites had a portfolio of 14,519 towers generating revenues. Over the course of the year, we added 760 new towers to our portfolio in Mexico and 55 in Costa Rica, bringing the total to 15,334 at the end of the year—an annual growth of 5.61%.

One of the Company's main goals is to increase the number of co-locations. In 2017 it was able to add 1,255 co-locations, making substantial progress on this front. In Mexico, backed by a reference offer, our Company has Master Lease Agreements with Telcel, Telefónica, AT&T

and Altán. In addition to these, the Company also began a commercial relationship with Total Play and Encontrack, which are not mobile telephony operators and thus do not compete for the bands that are useful for cell phone spectrum. This is a sign of our interest in diversifying the client portfolio. Furthermore, in Costa Rica, Telesites began to co-locate both with Telefónica Costa Rica and the Instituto Costarricense de Electricidad (the government agency in charge of telecommunications and electrical energy in that country).

Telesites earned revenues of Ps.5.9 billion in 2017, a year-to-year growth of 8.1%. EBITDA grew by 14.3%, improving our EBITDA margin to 59.5% thanks to the investments of previous periods and the Ps. 1.4 billion invested in 2017 in construction of towers in both Mexico and Costa Rica.

We are looking ahead to a good year in 2018, when we intend to continue improving our margins through co-locations on both regions where we operate, and by building new towers.

Our Company continues to concentrate on creating value by: (i) increasing client co-location; (ii) organic growth in the regions where we operate; (iii) seeking out new growth opportunities; (iv) ensuring efficient resource management; (v) forging closer ties with our clients, suppliers and employees; (vi) incorporating new platforms to improve service to our tenants; (vii) continuously improving our planning, construction and maintenance processes.

Sincerely,

Gerardo Kuri Kaufmann
Chief Executive Officer
Telesites, S.A.B. de C.V.

More towers... more clients

Our portfolio in Mexico, counting the 760 new towers added during the year, is the largest in the country, and we have outpaced our competitors both in terms of tower construction and overall growth in recent years. In Costa Rica, since we first began operations in this country, we have added 268 towers to the portfolio and continue to work on increasing the number of co-locations.

During 2017 we also increased the number of clients, bringing in Altán, Encontract and Total Play in Mexico, as well as Telefónica Costa Rica and the Instituto Costarricense de Electricidad. We attribute this success to our determination to diversify the client base, focusing primarily on mobile telephony operators but also seeking out opportunities with clients in other areas of business.

1,255
new
co-locations

Geographic diversification

Due to the growth of telecommunications in Mexico, the geographic footprint of our tower portfolio has extended to all key points in the country. Our towers also offer higher potential yield, because growth in the past year was concentrated in urban areas across the country, translating into attractive and potentially unique locations for our clients.

- Towers in urban areas
- Towers in rural areas

Rising potential *demand*

Consumer need for data has doubled in the past two years, according to the private research firm Competitive Intelligence Unit, mainly because of the increasing use of the internet for video, driven in turn by the increasingly widespread use of smartphones. This translates into a demand for new sites and co-locations, and Telesites has high-quality passive infrastructure, premium locations and excellent services.

* Revenues in 2015 include Ps. 438.1 million in non-recurring revenues resulting from a change in the estimated reserve for asset retirement.

Corporate governance

6
regular
directors

Administration of the Company is the responsibility of a Board of Directors, which is currently made up of six (6) regular directors and no designated alternates. Telesites' bylaws stipulate that the Board of Directors has between five and twenty-one directors and an equal number of alternate directors. Directors need not be shareholders, but a majority of the directors and alternate directors must be Mexican citizens and elected by Mexican shareholders.

Directors and alternate directors are elected or reelected at each annual general shareholders' meeting. In accordance with the Mexican Securities Market Law (LMV), the determination as to the independence of Telesites' directors is made by Telesites' shareholders, though the Mexican Banking and Securities Commission may challenge this determination. Pursuant to our bylaws and the Mexican Securities Market Law, at least 25% of Telesites' directors must be independent. Currently close to 70% of our directors are independent, a proportion significantly higher than that required by law. Meetings of the Board of Directors may be legally called to order if the majority of its members are present.

Our bylaws also state that the members of the Board of Directors are elected for a term of one year. Pursuant to the General Law on Commercial Corporations (LGSM), however, members of the Board continue in their positions after the expiration of their terms for up to an additional thirty-day (30) period if new members are not elected and substitutes have either not been designated for the departing member of the Board or have not

assumed their roles. Furthermore, under certain circumstances provided under the LMV, the Board of Directors may elect temporary directors who then may be elected or replaced at the shareholders' meetings.

The following is a list of the current members of the Board of Directors, their position on the Board, their business experience and other board experience, appointed to serve for the period from April 2018 to April 2019. Shareholders ratified these board members' positions in the General Ordinary Annual Shareholders' Meeting of April 30, 2018.

Verónica Ramírez Villela and Eriván Urióstegui Hernández serve as secretary and pro-secretary, respectively, of the Board of Directors of Telesites, but are not members of that board.

There is no relationship, by blood or by marriage, between members of the Company's Board of Directors and its senior executives.

The Company does not maintain pension, retirement or other such plans for members of the Board of Directors, senior executives or other parties that may be considered related to the Company.

Board of directors

Member	Position/Type	Profile
Juan Rodríguez Torres	Chairman of the Board Regular independent member	Mr. Rodríguez received a bachelor's degree in Civil Engineering from the Universidad Nacional Autónoma de México and has a master's degree in Operations Research and Industrial Engineering. He is 78 years old. He is also a member of the board of directors of Procorp, S.A. de C.V., a capital investment company, Grupo Sanborns, S.A.B. de C.V. and Elementia, S.A. de C.V. (for which he also serves as chairman of the audit committee), board member of Minera Frisco and chairman of its audit and corporate practices committee, and a consulting board member of Grupo Financiero Banamex. In addition, Mr. Rodríguez serves as a board member of the following Spanish corporations: Fomento de Construcciones y Contratas, S.A. and Cementos Portland Valderribas, S.A. and their committees; and as the non-executive president of the real estate group REALIA Business, S.A. Mr. Rodríguez is the founder of various companies in the real estate and footwear industries.
Daniel Díaz Díaz	Regular independent member	Mr. Díaz has a bachelor's degree in Civil Engineering from the Universidad Nacional Autónoma de México. He is 84 years old. He served in the public sector as under secretary for Infrastructure and Secretary of Communications and Transportation. From 1990 to 1997 he served as a member of the board of the Universidad Nacional Autónoma de México. He served as General Director of the Instituto Mexicano del Transporte and, from 2000 to 2001, as general director of Caminos y Puentes Federales de Ingresos y Servicios Conexos. From 2003 to 2005 he was an infrastructure project advisor to the Fundación del Centro Histórico de la Ciudad de México, A.C., and currently serves on the boards of Carso Infraestructura y Construcción, S.A. de C.V. and Impulsora del Desarrollo y el Empleo en América Latina, S.A.B. de C.V.
Luis Ramos Lignan	Regular independent member	Mr. Ramos has an undergraduate degree in Civil Engineering and a master's degree in Hydraulics from the Universidad Nacional Autónoma de México. He is 78 years old. He has served as chairman of the Colegio de Ingenieros Civiles de México and the Cámara Nacional de Empresas de Consultoría. He is currently CEO of Ingeniería y Procesamiento Electrónico, S.A. de C.V. and president of the Instituto Mexicano de Auditoría Técnica, A.C., and is a citizen board member of the State of Mexico Electoral Commission.
Daniel Goñi Díaz	Regular independent member	Mr. Goñi Díaz has an undergraduate degree in Law from the Universidad Nacional Autónoma de México. He is 66 years old. He is notary public number 80 in the State of Mexico and has served as secretary, vice president and president of the Mexican Red Cross on several occasions. He has also been citizen board member of the State of Mexico Electoral Commission.
Víctor Adrián Pandal González	Regular related member	Mr. Pandal has an undergraduate degree in Business Administration from the Universidad Iberoamericana. He is 44 years old. He also holds a master's degree in Business Administration from Boston University. From April 2002 to the present, he has served as general director of the Fundación del Centro Histórico de la Ciudad de México, A.C.
Gerardo Kuri Kaufmann	Director Regular related member	Mr. Kuri holds a bachelor's degree in Industrial Engineering from the Universidad Anáhuac. He is 34 years old. From 2008 to 2010, he served as purchasing director of Carso Infraestructura y Construcción, S.A. de C.V. Since the founding of Inmuebles Carso, S.A.B. de C.V., and until April 2016, he was CEO of that company, and today is a member of its board, as well as of the board of all its subsidiaries. He is also a member of the board of directors of Minera Frisco, S.A.B. de C.V.; Elementia, S.A. de C.V.; Fomento de Construcciones y Contratas, S.A. and Cementos Portland Valderribas, S.A., Realia Business, S.A. and Carso Infraestructura y Construcción, S.A. de C.V.

Report of the **audit and corporate practices committee**

**To the Board of Directors of
Telesites, S.A.B. de C.V.**
Present

In accordance with article 43, sections I and II of the Mexican Securities Market Law (SML), and pursuant to the recommendations contained in the Code of Best Corporate Practices, on behalf of the Audit and Corporate Practices Committee of Telesites, S.A.B. DE C.V. (the “Company” or “Telesites”), we hereby present to you our report on the activities carried out by this corporate committee in the performance of its duties during the fiscal year ended December 31, 2017.

One of the basic responsibilities of Company management is to issue financial statements that have been prepared on the basis of applicable financial reporting standards. These financial statements should reflect in a clear, sufficient and appropriate manner the operations of the Company and the corporations it controls. Furthermore, Company management is charged with introducing appropriate internal control and internal audit systems, and appropriately and promptly disclosing any material information for the investing public as provided for by law. On its part, as an auxiliary body of the Board of Directors, the Audit and Corporate Practices Committee is responsible for overseeing the management, direction and execution of the Company’s businesses and those of the corporations it controls, and for verifying the Company’s compliance with various operating and internal control procedures.

In pursuit of these duties, the Company’s Audit and Corporate Practices Committee has reviewed the consolidated financial statements with figures as of December 31, 2017, and the opinion of the Company’s External Auditors regarding that information.

In fulfillment of its primary audit responsibilities, the Committee carried out the following activities:

- a)** In regular meetings of this corporate body, we were informed of transactions carried out by the Company and the corporations it controls in the pursuit of their respective corporate purposes, and the expected results of those projects.
- b)** We evaluated the performance of Despacho Mancera, S.C., a member of Ernst & Young Global Limited, and found it to be acceptable and, accordingly, we recommended that the Board of Directors ratify its appointment as External Auditor, to review the financial statements and prepare the corresponding audit opinion of the Company and the corporations it controls for fiscal year 2017. To do so, we verified the appropriate preparation and presentation of the interim financial information for the Company, corroborating whether it was clear, precise and in compliance with international financial reporting standards.
- c)** We approved the fees paid to the External Auditor as well as the program for issuing its opinion on the financial statements for fiscal year 2017.
- d)** We found no relevant cases of non-compliance with the operating or accounting guidelines or policies of the Company or its subsidiaries as of December 31, 2017.
- e)** It was not necessary to acquire services that would expand or complement the external audit, but the Company did hire independent experts to assess the useful life and valuation of assets and issue their opinions. The Committee considered these opinions acceptable and recommended to the Board that they be incorporated into the Company’s books.
- f)** We reviewed the financial statements for the Company and its subsidiaries as of December 31, 2017, the External Auditor’s report, and the accounting policies used in preparing the financial statements, and verified that the necessary information was disclosed in keeping with current regulations. After having discussed their content with the persons responsible for preparing them, and having heard the comments of the External Auditor, who is responsible for providing an opinion on the reasonableness of the financial statements and the extent to which they conform to financial reporting standards, we recommended that the Company’s Board of Directors approve those statements for presentation to the ordinary annual shareholders’ meeting of the Company, because we believe they reasonably reflect the Company’s financial situation as of the date indicated.
- g)** There were no modifications and/or authorizations regarding the accounting policies of the Company or its subsidiaries, and the books reflect only adjustments to the Company’s accounting estimates to incorporate the opinions of the external experts hired to analyze the useful life of Company assets.
- h)** We followed up on implementation of the Company’s policies and processes regarding risk management, internal control and auditing, as well as the status of the internal control system. Furthermore, the Committee was informed of various non-relevant deficiencies or discrepancies detected by the internal audit area, and in this respect the Company management also informed us of the measures taken to correct them. It should be noted that we detected no relevant breaches of the internal control policies established by the Company.

i) We approved the work program of the internal auditor for fiscal year 2017 and followed up on and verified that it was observed.

j) We supported the Board of Directors in preparing the reports referred to in article 28, section IV of the SML.

k) We reviewed and recommended that the Board of Directors approve the transactions carried out by the Company under the terms mentioned in article 28 of the Securities Market Law, particularly with regard to transactions with related parties, verifying that these were carried out at market values and on the basis of the corresponding transfer price studies. We also saw to it that these transactions were reviewed by the Company's External Auditor, as indicated in the corresponding note to transactions with related parties in the report on the consolidated financial statements of the Company with data as of December 31, 2017.

l) We followed up on the resolutions of the shareholders' meeting and the board of Directors.

Additionally, and in fulfillment of its primary Corporate Practices duties, the Committee carried out the following activities:

a) Evaluated the performance of key executives of the Company and its subsidiaries.

b) Reviewed and followed up on Telesites' transactions with related parties and those of the corporations it controls, which were carried out during the ordinary course of business and under market conditions.

c) Analyzed the process of compensation for Company employees, including its key executives.

d) Based on the analysis of the Company's results and the interviews held with key executives, we found its performance during the fiscal year to have been satisfactory.

e) No requests were received relating to the permissions mentioned in article 28, section III, point f) of the SML.

f) Continued the supervision of the Company's corporate and legal situation, verifying that it remained in compliance with the applicable laws and regulations.

No observations were received from shareholders, board members, key executives, employees or third parties regarding accounting practices, internal controls or issues relating to internal or external audits of the Company, nor were there any reports of actions or situations deemed irregular in its administration or which may have had an adverse effect on the Company's financial situation.

We have reviewed the consolidated financial statements of the Company for the fiscal year ended December 31, 2017, and the opinion of the Company's External Auditor, finding that they were prepared in accordance with accounting policies, procedures and practices consistent with financial reporting standards, and we agree with the content of that opinion as we believe they reasonably reflect the financial position of the Company as of December 31, 2017. We believe the management, direction and execution of the Company's businesses during fiscal year 2017 was carried out appropriately by Company management.

We make the foregoing statement for the purpose of complying with the obligations entrusted to this corporate body and provided for in the SML, and with any other duty that has been or is entrusted to us by the Company's Board of Directors, further noting that in the preparation of this report we took into account the opinion of key executives of Telesites.

Ing. Daniel Díaz Díaz

Chairman of the Audit and Corporate Practices Committee
Telesites, S.A.B. de C.V.

Consolidated

financial statements

- 15** Report of Independent auditors

- 20** Consolidated statements of comprehensive income
- 21** Consolidated statements of changes in equity
- 22** Consolidated statements of cash flows
- 23** Notes to consolidated financial statements

Report of independent auditors

to the Shareholders of
Telesites, S.A.B. de C.V. and subsidiaries

Opinion

We have audited the accompanying consolidated financial statements of Telesites, S.A.B. de C.V. and subsidiaries ("the Company"), which comprise the consolidated statement of financial position as at 31 December 2017, and the consolidated statement of comprehensive income, statement of changes in equity and statement of cash flow for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Telesites, S.A.B. de C.V. and subsidiaries as at 31 December 2017 and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ("ISA"). Our responsibilities under those standards are described in the *"Auditor's Responsibilities for the Audit of the consolidated financial statements section"* of our report. We are independent from the Company in accordance with the international Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants ("IESBA Code")* together with the ethical requirements that are relevant to air audit of the consolidated financial statements in Mexico according with the *"Codigo de Etica Profesional del Instituto Mexicano de Contadores Públicos ("IMCP Code")* and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *"Auditor's responsibilities for the audit of the consolidated financial statements"* section of our report, in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

1. Property and Equipment

Description of key audit matter

We considered the passive infrastructure under property and equipment as a key audit matter because the valuation of these assets requires the use of assumptions that involve calculations that are subjective and complex, since they require that we seek assistance from specialists of the Company's management and audit specialists to carry out our audit procedures.

How we addressed key audit matter

We evaluated the assumptions used to measure and recognize property and equipment on the basis of a fair value review that we performed in accordance with International Accounting Standard (IAS) 16 and IFRS 13. For this review, we considered and evaluated the reconciliation of the beginning and ending balances of property and equipment. Based on audit samples, we analyzed the increases reflected in property and equipment accounts by reviewing and comparing significant items to their respective support documentation. We tested asset depreciation by verifying the mathematical calculations underlying the depreciation and we carried out substantive analytical procedures as well. To determine the existence of potential indicators of impairment, we sought assistance from specialists and we assessed the Company's presentation and disclosure of passive infrastructure in accordance with IFRS.

Notes 2.g and 7 to the accompanying consolidated financial statements, include disclosures regarding the Company's construction and property and equipment.

2. Current and deferred income tax

Description of key audit matter

We considered current and deferred income tax a key audit matter due to the significant degree of subjectivity inherent in some of the tax criteria adopted by the Company and which given the diversity of interpretations of Mexican tax laws, the tax authorities may or may not agree with. We also focused on this area due to the fact that differences in interpretations of the tax laws could give rise to contingencies for the Company, which could ultimately affect the recoverability of its deferred tax assets. The Company's income tax matters should be handled by personal specialized technical skills in taxes.

How we addressed key audit matter

We compared the book amounts considered in the calculation of current and deferred taxes against the Company's audited amounts at the same date. We assessed the financial projections that support the Company's decisions regarding the recognition of deferred tax assets based on their recoverability. We sought assistance from in-house tax specialists to perform the required tax audit procedures. We analyzed the reconciliation of the Company's effective income tax rate and we test significant items. We also evaluated the Company's presentation and disclosure of current and deferred income tax in accordance with the applicable accounting requirements.

Note 2.o to the accompanying consolidated financial statements, includes disclosures regarding the Company's policies in respect of current and deferred income tax and respect of deferred tax assets.

3. Short-term and long-term debt

Description of key audit matter

We considered the Company's short-term and long-term debt (structured notes and bank loans) a key audit matter due to the high level of professional judgement required for the valuation of these financial liabilities, which are measured at amortized cost, and since they require that we seek assistance from specialists of the Company's management and audit specialists to carry out our audit procedures.

How we addressed key audit matter

We evaluated management's calculation of the Company's debt. We also applied analytical testing to interest accrued on the debt and we compared the results of this testing to the reconciliation of the Company's interest payable. We analyzed the determination of the market values of the debt and the calculation of accrued interest and we assessed these amounts for consistency with the terms and conditions of the respective loan agreements. We compared the book balances of the debt with the balances reported in the balance confirmations received from the financial institutions with which the Company contracted the debt. We evaluated the Company's risk from fluctuations in the interest rates of the debt. We received assistance from a valuation specialist to value the Company's debt recognized at amortized cost. We also evaluated the Company's presentation and disclosure of its structured notes in accordance with IFRS.

Note 2.e to the accompanying consolidated financial statements, includes disclosures related to this matter.

4. Asset retirement obligation

Description of key audit matter

We considered the Company's asset retirement obligation a key audit matter due to high professional judgement required to calculate this obligation and because it requires the use of assumptions that involve estimates that are subjective and complex, since they require that we seek assistance from specialists of the Company's management and audit specialists to carry out our audit procedures.

How we addressed key audit matter

We reviewed the Company's calculation of its asset retirement obligation and we verified the correct valuation of the principal components of the provision in accordance with IAS 37. Using audit samples, we reviewed the Company's lease agreements to verify the term of each asset retirement obligation. We also received assistance from a valuation specialist to verify the reasonableness of the provision and we assessed the correct presentation and disclosure of the Company's asset retirement obligation in accordance with IFRS.

Note 2.l to the accompanying consolidated financial statements, includes disclosures related to the Company's asset retirement obligation.

5. Revenue Recognition

Description of key audit matter

We considered revenue recognition a key audit matter due to the importance of this area for users of the Company's financial statements and due to the importance of having audit evidence regarding revenue recognition in accordance to IAS 18, as well as to fact that revenue recognition encompasses a number of audit considerations, including the measurement, recognition, disclosure of revenue and tax aspects relating to the taxability of the Company's revenue.

How we addressed key audit matter

As part of our audit we verified the Company's correct revenue recognition in accordance with IFRS on the basis of substantive tests, which included verifying the existence of support documentation for a sample of significant items selected in accordance with ISA, the execution of analytical procedures that included variance analyses, cut-off test to verify recognition of revenue in the correct period, a review of revenue calculations, and a review of the Company's current lease agreements.

Note 2.c to the accompanying consolidated financial statements, includes disclosures regarding the Company's revenue recognition policies.

Other information

Management is responsible for the other information. The other information comprises the information included in the annual report filed with the Comisión Nacional Bancaria y de Valores ("CNBV"), but does not include the consolidated financial statements and our auditor's report thereon. We expect to obtain the other information after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information when we have access to it and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read and consider the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and to issue a statement on the Annual Report required by the CNBV, that contains a description of the matter.

Responsibilities of Management and of those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the accompanying consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

The objectives of our audit are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion.

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Jose Andres Marin.

Our audit opinion and the accompanying financial statements and footnotes have been translated from the original Spanish version into English for convenience purposes only.

Notes to consolidated financial statements 31 December 2017 and 2016

(Amounts in thousands of Mexican pesos, unless otherwise indicated)

1. Description of the Business and Relevant Events

I. Description of the Business

Telesites, S.A.B. de C.V. and subsidiaries ("Telesites" or "the Company") was incorporated in Mexico City on 19 October 2015. The Company was created as a result of its spin-off from América Móvil, S.A.B. de C.V. (AMX) and it is primarily engaged in leasing passive mobile telecommunications infrastructure comprised of physical space on its towers for the installation of signal transmission and reception equipment and auxiliary equipment (including power generators, backup batteries, air conditioning systems, alarm systems and other equipment).

The Company's operating period and fiscal year is from 1 January through 31 December 2017.

The Company's head offices are located in Mexico City, at Paseo de las Palmas No. 781, 2nd floor, office No. 203, Colonia Lomas de Chapultepec III Sección, Miguel Hidalgo, postal code 11000.

On 11 April 2018, the Company's Board of Directors authorized the issue of the accompanying consolidated financial statements.

II. Relevant Events

a) New entities

Telesites, S.A.B. de C.V.

After receiving approval from the Federal Telecommunications Institute (IFT) and the Tax Administration Service (SAT) to be spun off from AMX, Telesites was incorporated on 19 October 2015 to be the group's controlling company.

Telesites Internacional, S.A. de C.V.

Telesites Internacional, S.A. de C.V. (Teleint) was incorporated on 5 November 2015 as an intermediate holding company of foreign related parties.

Operadora de Sites Mexicanos, S.A. de C.V.

Operadora de Sites Mexicanos, S.A. de C.V. (Opsimex) was incorporated on 5 January 2015 as a result of its spin-off from Radiomóvil Dipsa, S.A. de C.V. (Telcel) and it is primarily engaged in leasing towers and physical space for passive mobile telecommunications infrastructure to mobile carriers in Mexico.

Demonsa, S.A. de C.V.

Demonsa, S.A. de C.V. (Demonsa) was incorporated on 10 December 2014 and is primarily engaged in providing personnel services to Opsimex.

Telesites Costa Rica, S.A.

Telesites Costa Rica, S.A. (TLC) was incorporated on 14 December 2015 and this entity is primarily engaged in leasing towers and physical space for installations of passive mobile telecommunications infrastructure to mobile carriers in Costa Rica.

Telesites Colombia, S.A.S.

Telesites Colombia, S.A.S. (Teleco) was incorporated on 5 January 2016 and this entity is primarily engaged in leasing towers and physical space for installations of passive mobile telecommunications infrastructure to mobile carriers in Colombia. Teleco had no operations during the year ended 31 December 2016.

c) Merger

At an extraordinary shareholders' meeting held on 17 March 2016, the Company's shareholders agreed to merge Promotora into Opsimex. As a result of this merger, certain assets and liabilities of Promotora were transferred to Opsimex.

2. Basis of Preparation of the Consolidated Financial Statements and Summary of Significant Accounting Policies

a) Basis of preparation

The accompanying financial statements have been prepared in accordance with the IFRS, effective as at 31 December 2017, as issued by the IASB.

The preparation of the Company's consolidated financial statements in accordance with IFRS requires the use of critical estimates and assumptions that affect the reported amounts of certain assets and liabilities, and revenue and expenses. It also requires management to exercise judgment in how it applies the Company's accounting policies.

The Company's functional and reporting currency is the Mexican peso.

b) Consolidation

The accompanying consolidated financial statements include the accounts of Telesites and those of the subsidiaries over which the Company exercises significant control. The financial statements of the subsidiaries have been prepared for the same reporting period and following the same accounting policies as those of the Company. All companies operate in the telecommunications sector or provide services to companies related to these activities. All intercompany balances and transactions have been eliminated on consolidation.

The operating results of the subsidiaries were included in the Company's consolidated financial statements as of the month following their incorporation.

A description of the Company's main investments in its subsidiaries as at 31 December 2017 and 2016 is as follows:

Company name	% equity interest as at 31 December		Country	Date of first consolidation	Type of operations
	2017	2016			
Intermediate holding company					
Telesites Internacional, S.A. de C.V.	100%	100.00%	Mexico	November 2015	Intermediate holding company
Infrastructure					
Operadora de Sites Mexicanos, S.A. de C.V.	100%	100.00%	Mexico	January 2015	Infrastructure
Telesites Costa Rica, S.A.	100%	100.00%	Costa Rica	January 2016	Infrastructure
Telesites Colombia, S.A.S.	100%	100%	Colombia	January 2017	Infrastructure
Services					
Demonasa, S.A. de C.V.	100%	99.99%	Mexico	January 2015	Services

c) Revenue recognition

Rental income

The Company recognizes its revenue from passive infrastructure rentals as it accrues based on the terms of each lease agreement. Rent charged for infrastructure is reviewed and increased based on the National Consumer Price Index (NCPI) and the amount of rent is generally determined based on the specific characteristics of the location of the leased passive infrastructure.

d) Use of estimates

The preparation of financial statements in accordance with IFRS requires the use of estimates and assumptions in certain areas. Actual results could differ from these estimates. The Company based its assumptions and estimates on the best available information at the time the consolidated financial statements were prepared. However, the existing circumstances and assumptions about future events may change due to changes in the market or circumstances that are beyond the Company's control. Such changes are reflected in the estimates and their effects are shown in the financial statements as they occur.

These assumptions mostly refer to:

- Useful life estimates of items of property and equipment
- Allowance for doubtful accounts
- Impairment in the value of long-lived assets
- Fair value measurement of financial instruments
- Employee benefits

e) Financial assets and liabilities

Financial assets and liabilities that are within the scope of IAS 39 *Financial Instruments: Recognition and Measurement* generally include investments in financial instruments, debt and equity instruments, accounts receivable and other accounts receivable, loans and financing, accounts payable and accrued liabilities.

Financial assets and liabilities are initially measured at fair value, plus directly attributable transaction costs, except for those designated upon initial recognition at fair value through profit or loss. Financial assets and liabilities are subsequently measured based on their classification into one of the following categories: (i) at fair value through profit or loss; (ii) held-to-maturity or available-for-sale; or (iii) loans and receivables.

The Company's financial assets consist of cash and cash equivalents, accounts receivable and other assets.

The Company's financial liabilities are classified as either: i) financial liabilities measured at fair value through profit or loss, or ii) financial liabilities measured at amortized cost.

The Company's financial liabilities consist of short- and long-term debt, accounts payable and accrued liabilities, and related party payables. The Company's debt under its issuances of structured notes is recognized as a financial liability measured at amortized cost.

Offsetting of financial instruments

Financial assets and financial liabilities are offset with the net amount reported in the consolidated statement of financial position if, and only if, (i) there is a currently enforceable legal right to offset the recognized amounts; and (ii) there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Assets and liabilities measured at fair value on a recurring basis

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's-length market transactions; reference to the current fair value of another financial instrument that is substantially the same; a discounted cash flow analysis or other valuation models.

The hierarchy used for determining fair values is as follows:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: Variables other than the quoted prices included in level 1 that are observable for assets or liabilities, either directly (prices) or indirectly (price derivatives) and;

Level 3: Variables used for assets or liabilities that are not based on observable market data (unobservable variables).

Note 10 provides an analysis of the fair values of the Company's financial instruments.

f) Cash and cash equivalents

Cash in banks earns interest at floating rates on daily account balances. Cash equivalents are represented by short-term deposits made for terms ranging from one to three days, and which bear interest at rates common for each type of short-term investment. These investments are stated at cost plus uncollected accrued interest, which is similar to their market value.

g) Property and equipment, net

The Company's property includes passive infrastructure, which includes non-electronic components used in telecommunications networks, including masts, towers and poles. These fixed assets are measured at fair value using the revaluation model specified in IAS 16 *Property, Plant and Equipment*. Company management periodically reviews the stated amounts of the Company's fixed assets whenever it believes that there is a significant difference between the carrying amount of an asset and its fair value. Depreciation is determined on fair values on a straight-line basis over the estimated useful lives of the assets starting at the time the assets are available for use.

The Company's equipment is carried at cost, net of accumulated depreciation, in accordance with IAS 16 *Property, Plant and Equipment*. Depreciation is determined on carrying amounts on a straight-line basis over the estimated useful lives of the assets starting in the first month after they are available for use.

The Company periodically reviews the residual values, useful lives and depreciation methods of its fixed assets and adjusts them prospectively where appropriate at the end of each reporting period, in accordance with IFRS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in other operating income or other operating expenses when the asset is derecognized.

Depreciation rates for 2017 and 2016 are as follows:

	2017	2016
Passive infrastructure	3.33% to 6.67%	6.25% and 5%
Automotive equipment	25%	25%
Computer equipment	30%	30%
Other equipment	10%	10%

The carrying amount of property and equipment is reviewed annually whenever there are indicators of impairment in the value of such assets. When the recoverable amount of an asset, which is the higher of the asset's expected net selling price and its value in use (the present value of future cash flows), is less than its net carrying amount, the difference is recognized as an impairment loss.

As at 31 December 2017 and 2016, there were no indicators of impairment in the values of the Company's fixed assets.

h) Licenses and software

The licenses and software acquired by the Company are classified as intangible assets with finite useful lives that are recognized at cost. Amortization of these intangible assets is calculated on the assets' carrying amounts on a straight-line basis based on the estimated useful lives of the assets.

The annual amortization rate for acquired licenses is 15%.

i) Impairment in the value of long-lived assets

The Company assesses at each reporting date whether there is an indication that its long-lived assets may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount, which is the higher of an asset's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired, and its carrying amount is written down to its recoverable amount, and the loss is immediately recognized in profit or loss.

The depreciation and amortization expense for future periods is adjusted to the new carrying amount during the remaining useful life of the related assets. Recoverable amounts are determined for each individual asset, unless the asset generates cash inflows that are closely dependent on the cash flows generated by other assets or group of assets (cash generating units).

j) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset and whether the arrangement conveys a right to use the asset or assets.

- Operating leases

Leases in which the Company does not transfer substantially all of the risks and rewards inherent to the ownership of the asset are classified as operating leases. Payments made under operating lease agreements are recognized in the statement of comprehensive income on a straight-line basis over the term of the lease.

k) Provisions, contingent liabilities and commitments

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provision amounts are determined as the present value of the expected outflow of resources to settle the obligation. The provisions are discounted using a pre-tax rate that reflects the current market conditions at the date of the statement of financial position and, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities are recognized only when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Also, contingencies are recognized only when they generate a loss.

l) Asset retirement obligation

The Company records a reserve for the decommissioning costs associated with the sites where its passive infrastructure is located. Decommissioning costs are measured at the estimated fair values of the asset costs expected to be incurred to settle the Company's obligation to decommission the assets. These fair values are determined on the basis of the estimated cash flows associated with the method of settlement. Asset retirement costs are capitalized as part of the carrying amounts of the related assets. For purposes of this calculation, cash flows are discounted at a pre-tax rate that reflects the risks associated with the asset retirement obligation. Reversals of previous discount rates are recognized in profit or loss as a financing cost as incurred. Estimated future decommissioning costs are reviewed annually and are revised where needed. Changes in future cost estimates or discount rates are recognized as an increase or a decrease in the carrying amount of the asset.

m) Employee benefits

The Company annually recognizes the liability for seniority premiums based on independent actuarial calculations applying the projected unit credit method, using financial assumptions net of inflation. The latest actuarial calculation was prepared on 31 December 2016.

The Company creates a provision for the cost of compensated absences, such as paid annual leave, which is recognized using the accrual method.

n) Employee profit sharing (EPS)

Current EPS is presented as part of operating expenses in the statement of comprehensive income.

o) Income tax

Current income tax is recognized as a current liability, net of prepayments made during the year.

Deferred income tax is calculated using the asset and liability method established in IAS 12 *Income Taxes*.

Deferred income tax is calculated using the asset and liability method, based on the temporary differences between financial reporting and tax values of assets and liabilities at the reporting date.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be used. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

p) Earnings per share

Earnings per share are determined by dividing net income for the year by the weighted-average number of shares outstanding attributable to ordinary equity holders of the parent during the year.

q) Statement of cash flows

The statement of cash flows reports the cash generated and used by the Company during the year. It first shows the Company's loss before income tax, followed by its cash flows resulting from operating activities, then its cash flows resulting from investing activities, and lastly its cash flows resulting from financing activities.

For the year ended 31 December 2017 and 31 December 2016, the statement of cash flows was prepared using the indirect method.

r) Concentration of risk

The main financial instruments used to fund the Company's operations are comprised of bank loans, lines of credit, accounts payable and related party payables. The Company holds several financial assets, such as cash and cash equivalents, accounts receivable, related party receivables and other current assets that are directly related to its business.

The main risks associated with the Company's financial instruments are cash flow risk and market, credit and liquidity risks. The Company performs sensitivity analyses to measure potential losses in its operating results based on a theoretical increase of 100 basis points in interest rates. The Board of Directors approves the risk management policies that are proposed by the Company's management.

Credit risk is the risk that the counterparty will default on its payment of obligations with the Company. The Company is also exposed to market risks associated with fluctuations in interest rates.

Financial assets which potentially subject the Company to concentrations of credit risk are cash and cash equivalents, short-term deposits and debt instruments. The Company's policy is designed to not restrict its exposure to any one financial institution.

The Company continuously monitors its customer accounts and a portion of the Company's surplus cash is invested in time deposits in financial institutions with strong credit ratings.

s) Statement of comprehensive income presentation

Costs and expenses shown in the Company's consolidated statement of comprehensive income are presented based on a combination of their function and their nature, which provides a clearer picture of the components of the Company's operating income, since such classification allows for comparability of the Company's financial statements with those of other companies in its industry.

Operating income is recognized in the consolidated statement of comprehensive income, since it is an important indicator used for evaluating the Company's operating results. Operating income consists of ordinary revenues and operating costs and expenses.

An analysis of the Company's other income is as follows:

	2017		2016	
Technical advice	Ps.	56,834	Ps.	-
Sale of scrap		71		79
Reversal of provisions from prior years		-		14,676
Sale of automotive equipment		-		7,244
	Ps.	56,905	Ps.	21,999

3. New accounting pronouncements

The standards and interpretations that are issued, but not yet effective, up to the date of issue of the Company's financial statements are disclosed below.

IFRS 9 *Financial instruments: Classification and measurement*

This standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Retrospective application is required but comparative information is not compulsory. Application of previous versions of IFRS 9 (2009, 2010 and 2013) is permitted if the date of initial application is before 1 February 2016.

IFRS 15 *Revenue from contracts with customers*

IFRS 15 was issued in May 2016 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue.

The new revenue standard will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2017 with early adoption permitted.

The Company's Management analyzed the new five-step model for revenue recognition; derived from this analysis, and does not expect this standard to have significant effects, primarily due to the fact that revenue recognition of rent is restricted to monthly periods established in the contracts with customers.

IFRS 16 *Leases*

IFRS 16 was issued in January 2016 and it replaces IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases-Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under IAS 17.

The standard includes two recognition exemptions for lessees – leases of 'low-value' assets and short-term leases (i.e., lease agreements with terms of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right to use the asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting is substantially unchanged from today's accounting under IAS 17. Lessors will continue to classify all leases using the same classification principle as in IAS 17 and distinguish between two types of leases: operating and finance leases. IFRS 16 also requires lessees and lessors to make more extensive disclosures than under IAS 17. IFRS 16 is effective for annual periods beginning on or after 1 January 2019. Early application is permitted, but not before an entity applies IFRS 15. A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach.

The Company expects the adoption of this standard to have significant effect on its financial information due primarily to the high number of leases that the Company has and which it currently accounts for as operating leases, since the accounting treatment of these leases may need to be modified after the Company adopts IFRS 16.

Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortization*

The amendments clarify the principle in IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets* that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is a part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to

depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. The amendments are applied prospectively and do not have any impact on the Company, given that it has not used a revenue-based method to depreciate its non-current assets.

Below are the rules and interpretations published and that came into force as of January 1, 2017.

Amendments to IAS 7 - Statement of cash flows: Disclosure initiative

The amendments require entities to disclose changes in liabilities produced by financing activities, including both those derived from cash flows and those that do not imply cash flows (such as gains or losses from exchange differences). These amendments do not have any impact on the financial statements.

Amendments to IAS 12 - Income taxes: Recognition of deferred tax assets for unrealized losses

The amendments clarify that an entity needs to take into account whether tax legislation restricts the types of tax benefits that can be used to offset the reversal of the deductible temporary difference corresponding to unrealized losses. In addition, the amendments provide guidance on how an entity should determine future tax benefits and explain the circumstances under which the tax benefit may include the recovery of some assets for an amount greater than their carrying amount. These amendments do not have any impact on the financial statements.

4. Cash and Cash Equivalents

An analysis of cash and cash equivalents as at 31 December 2017 and 2016 is as follows:

	2017	2016
Cash	Ps. 48	Ps. 52
Banks	550,528	216,836
Readily marketable securities	10,901	14,645
	Ps. 561,477	Ps. 231,533

5. Other Current and Non-current Assets

An analysis of this caption as at 31 December 2017 and 2016 is as follows:

	2017	2016
Advances to supplier	Ps. 77,900	Ps. 83,623
Value Added Tax payable, net	36,247	59,012
Prepaid insurance	4,627	1,893
Fees and subscriptions	1,293	-
Total other current assets	Ps. 120,067	Ps. 144,528
Security deposits	Ps. 103,172	Ps. 97,388
Rent paid in advance	57,020	92,613
Total other non-current assets	Ps. 160,192	Ps. 190,001

6. Related Parties

- a) An analysis of balances due from and to the Company's related parties as at 31 December 2017 and 2016 is provided below. The companies mentioned in this note are considered associates or affiliates of the Company, since the Company's principal shareholders hold direct or indirect stakes in these companies.

		2017	2016
Receivables:

- ⁽ⁱ⁾ On March 8, 2017, the Company entered into a contract amendment to the contract for the lease of its passive infrastructure and adaptation services with Telcel, celebrated on March 23, 2015, in which an extension to the original term was established of the Framework Agreement, to set up in 10 years, with date of termination on January 4, 2025. The lease of passive structure corresponds to non-electronic elements at the service of telecommunications networks that include, but not limited to, masts, towers, poles, sites, properties and physical spaces; the adaptation services correspond to all those modifications to the passive infrastructure requested by the client. As of December 31, 2017 and 2016, the amount charged to income for the lease of passive infrastructure and adjustment services amounted to Ps.5,605,121 and Ps.5,228,609, respectively, the amount of the account receivable from Telcel, as of December 31, 2017 and 2016, amounted to Ps.51,411 and Ps.104,969, respectively.

- (ii) During 2017 and 2016, the Company had transactions related to the construction of passive infrastructure with Operadora Cicsa, S.A. de C.V. (CICSA), construction expense under operating leases was Ps.345,124 and Ps.160,213 respectively. The account payable due to CICSA as at 31 December 2017 and 2016 is Ps.66,574 and Ps.185,847, respectively.
- (iii) During 2017 and 2016 the Company entered into leases of locations and land for passive infrastructure with Telcel for Ps.125,840 and Ps.271,392, respectively.
- (iv) During 2017 and 2016, the Company entered into insurance agreements, as required under its passive infrastructure lease agreements, with Seguros Inbursa, S.A., Grupo Financiero Inbursa (Inbursa). The Company's total insurance expense was Ps.38,669 and Ps.30,410, respectively.
- (v) The Company provided preventive maintenance to the passive infrastructure of PC Industrial, S.A. de C.V. (PCIS) in 2017 and 2016 the total maintenance expense for the year was Ps.28,920 and Ps.3,707 respectively. As at 31 December 2017 and 2016, the Company's account payable to PCIS is Ps.8,854 and Ps.4,300, respectively.
- (vi) During fiscal year 2017, the Company entered into operations for the lease of premises for the passive infrastructure with Grupo Sanborns, S.A. of C.V. (Sanborns), the amount charged to results for this concept, amounted to Ps.1,349.
- (vii) During the fiscal years of 2017 and 2016, the Company carried out operations for leasing services with Claro Costa Rica, S.A. (Claro), the amount charged to results for this concept, amounted to Ps.78,625 and Ps.39,093, respectively. As of December 31, 2017, the amount of the account receivable from Claro amounted to Ps.10,401.

7. Property and Equipment, net

The Company has two main types of towers: rooftop towers and greenfield towers, which are located in open areas. Most of the Company's greenfield towers can accommodate up to three customers, except for towers that are more than 45 meters high, which can accommodate up to five customers. Rooftop towers equipped with additional masts can accommodate more customers, provided that there is sufficient floor space available on-site to install the additional masts. As at 31 December 2017, the Company's passive infrastructure is comprised of 14,976 towers (14,302 towers as at 31 December 2016).

The Company's passive infrastructure is located in Mexico, distributed across nine cellular regions as defined by telecommunications sector rules and regulations. As at 31 December 2017, the Company has 267 towers in Costa Rica (166 towers as at 31 December 2016).

An analysis of property and equipment as at 31 December 2017 and 2016 is as follows:

Item	Passive infrastructure	Automotive equipment	Other equipment	Construction in process	Land	Total
Investment:						
As at 31 December 2015	Ps. 40,365,776	Ps. 4,976	Ps. 6,789	Ps. 294,624	Ps. 711	Ps. 40,672,876

Depreciation and amortization expense for the period ended 31 December 2017 and 2016 was Ps.2,042,366 and Ps.2,557,196, respectively.

8. Asset Retirement Obligation

An analysis of the Company's asset retirement obligation as at 31 December 2017 and 2016 is as follows:

	2017	2016
Balance as at 1 January of	Ps. 831,670	Ps. 732,990
Increase for additions of passive infrastructure	28,442	98,680
Charges	-	-
Balance as at 31 December	Ps. 860,112	Ps. 831,670

As at 31 December 2017, the review of the cash flow estimates and discount rates gave rise to no changes in these variables compared to the prior year.

9. Short- and Long-term Debt

Breakdown of debt		2017	2016
Bank loans	Short-term	Ps. 464,395	Ps. 345,486
Issue of structured notes	Long-term	22,068,347	21,576,196
Amortized cost		(49,496)	(55,537)
		22,018,851	21,520,659
Interest payable on structured notes	Short-term	492,321	476,492
Total debt		Ps. 22,975,567	Ps. 22,342,637

a) Issue of structured notes

On 17 July 2015, as part of its structured note placement program through Inversora Bursátil, S.A. de C.V., Casa de Bolsa Grupo Financiero Inbursa (Inversora), Opsimex was authorized to issue five-year structured notes of up to Ps.22,000,000, or its equivalent in UDIs (investment units). Opsimex issued the following structured notes under this program:

- i) On 5 August 2015, Opsimex issued series 1 OSM-15 Mexican peso structured notes for a total issue of Ps.3,500,000, and with a maturity date of 23 July 2025. These structured notes bear annual gross interest of 7.97%.
- ii) On 23 September 2015, Opsimex reissued its series 1 OSM-15R Mexican peso structured notes for a total issue of Ps.3,710,000, and with a maturity date of 23 July 2025. These structured notes bear annual gross interest of 7.97%.
- iii) On 5 August 2015, Opsimex issued series 2 OSM-152 Mexican peso structured notes for a total issue of Ps.4,500,000, and with a maturity date of 29 July 2020. These structured notes bear annual gross interest of 0.5% plus the 28-day Mexican weighted interbank rate (TIE).
- iv) On 5 August 2015, Opsimex issued series 3 OSM-15U structured notes denominated in UDIs for a total issue of Ps.7,000,000, (equal to 1,324,169 UDIs) and with a maturity date of 17 July 2030. These structured notes bear annual gross interest of 4.75%.
- v) On 18 February 2016, Opsimex reissued its series 1 OSM-15 2R Mexican peso structured notes for a total issue of Ps.2,500,000, and with a maturity date of 23 July 2025. These structured notes bear annual gross interest of 7.97%.
- vi) On 28 February 2017, Opsimex issued CB's series OSM-00217 and OSM-00117 in pesos, with a value of Ps.350,000 and Ps.505,000, respectively, maturing in 28 days at a gross annual interest rate of 7.06% per year. As of December 31, 2017, CB's were settled in full.
- vii) On 4 April 2017, Opsimex issued CB's serie OSM-00317 in pesos with a value of Ps.300,000, with a maturity of 15 days, and an annual interest rate of 7.22% per year. As of December 31, 2017, CB's were settled in full.

An analysis of the historical amounts and the outstanding accrued interest under the structured notes as at 31 December 2017 is as follows:

Series	Maturity date	Long-term debt	Interest payable
OSM-15 Mexican pesos series 1	23 July 2025	Ps. 3,500,000	Ps. 117,118
OSM-15R Mexican pesos series 1	23 July 2025	3,710,000	124,145
OSM-15 2R Mexican pesos series 1	23 July 2025	2,500,000	83,656
OSM-152 Mexican pesos series 2	29 July 2020	4,500,000	10,835
OSM-15U UDIs series 3	17 July 2030	7,858,347	156,567
		Ps. 22,068,347	Ps. 492,321

An analysis of the historical amounts and the outstanding accrued interest under the structured notes of Opsimex as at 31 December 2016 is as follows:

Series	Maturity date	Long-term debt	Interest payable
OSM-15 Mexican pesos series 1	23 July 2025	Ps. 3,500,000	Ps. 116,229
OSM-15R Mexican pesos series 1	23 July 2025	3,710,000	123,203
OSM-15 2R Mexican pesos series 1	23 July 2025	2,500,000	83,021
OSM-152 Mexican pesos series 2	29 July 2020	4,500,000	8,250
OSM-15U UDIs series 3	17 July 2030	7,366,196	145,789
		Ps. 21,576,196	Ps. 476,492

As at 31 December 2017 and 2016, the value of one UDI was Ps.5.9345 and Ps.5.5628, respectively. As at 11 April 2018, the date of the audit report on these financial statements, the value of the UDI was Ps.6.0325 per UDI.

Redemptions

The Series 1 (OSM-15, OSM-15R, OSM- 15 2R), Series 2 (OSM-152) Mexican peso structured notes and Series 3 (OSM-15U) structured notes in UDIs of Opsimex do not stipulate early redemptions during their lifetimes, and principal is repayable to noteholders at maturity.

b) Bank loans

An analysis of the Company's short-term bank loans as at 31 December 2017 is as follows:

Currency	Lender	Rate	Maturity date	Short-term debt		Interest	
Mexican pesos:	Bank of America, N.A. ^(iv)	1.625%+Libor	12 January 2018	Ps.	440,646	Ps.	1,129
Bank of America, N.A. ^(v)	1.625%+Libor	12 January 2018			22,612		8
Total debt				Ps.	463,258	Ps.	1,137

An analysis of the Company's short-term bank loans as at 31 December 2016 is as follows:

Currency	Lender	Rate	Maturity date	Short-term debt		Interest	
Mexican pesos:	Bank of America, N.A. ^(iv)	1.625%+Libor	28 February 2017	Ps.	290,734	Ps.	458
Bank of America, N.A. ^(v)	1.625%+Libor	28 February 2017			27,424		60
Bank of America, N.A. ^(vi)	1.625%+Libor	28 February 2017			26,805		5
Total debt				Ps.	344,963	Ps.	523

- (i) On 9 December 2016, the Company obtained a line of credit of USD 14,100,000 (Ps.290,734) from Bank of América, N.A. (BOFA) which matures on 28 February 2017. The loan bears annual interest equal to 1.6250% basis points plus the London Interbank Offered Rate (LIBOR), which is payable monthly.
- (ii) On 30 November 2016, the Company obtained a line of credit of USD 1,330,000 (Ps.27,424) from BOFA which matures on 28 February 2017. The loan bears annual interest equal to 1.6250% basis points plus the LIBOR, which is payable monthly.
- (iii) On 28 December 2016, the Company obtained a line of credit of USD 1,300,000 (Ps.26,805) from BOFA which matures on 28 February 2017. The loan bears annual interest equal to 1.6250% basis points plus the LIBOR, which is payable monthly.
- (iv) On 30 November 2017, the Company obtained a line of credit of USD 22,410 (Ps.440,646), from BOFA which matures on 12 January 2018. The loan bears annual interest equal to 1.6250% basis point to the LIBOR, which is payable monthly.
- (v) On 27 December 2017, the Company obtained a line of credit of USD 1,150 (Ps.22,612) from BOFA which matures on 12 January 2018. The loan bears annual interest equal to 1.6250% basis points plus the LIBOR, which is payable monthly.

On 1 August 2017, the Company obtained a loan from Banco Santander S.A. (Santander), of Ps.400,000, which matures on 14 September 2017. The loan bears annual gross interest of 0.53% plus the 28-day Mexican weighted interbank rate (TIIE).

During fiscal year 2017, the Company settled all of its bank debt contracted with Santander for Ps.400,000.

10. Financial Assets and Financial Liabilities

An analysis of the Company's financial assets and financial liabilities as at 31 December 2017 and 2016 is as follows:

	2017		2016	
	Carrying amount	Fair value	Carrying amount	Fair value
Long-term debt	Ps. 22,018,851	Ps. 21,394,032	Ps. 21,520,659	Ps. 21,231,322

The fair values of financial assets and financial liabilities are equal to the amounts at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Cash and cash equivalents, trade receivables, trade payables and accrued liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

11. Leases

The Company has entered into various operating lease agreements for the properties where its passive infrastructure is located. The agreements are for periods ranging from five to ten years, and the minimum annual lease payments are adjusted for inflation each year based on the NCPI. An analysis of the Company's future minimum lease payments for the next five years is as follows:

	2017
2018	Ps. 2,048,959
2019	2,252,660
2020	2,476,612
2021	2,722,829
2022	2,993,524
Total	\$ 12,494,584

For the year ended 31 December 2017 and 31 December 2016, rent under operating leases was Ps.1,863,678 and Ps.1,734,151, respectively.

12. Retirement Benefits

An analysis of the net periodic benefit cost, the net defined benefit liability and plan assets associated with the Company's post-employment benefits (pension plan, seniority premiums and termination benefit plan) as at and for the years ended 31 December 2017 and 2016 is as follows:

a) Net periodic benefit cost

	2017					
	Retirement benefits		Termination benefits		Total	
Analysis of net periodic benefit cost:						
Current year service cost	Ps.	264	Ps.	159	Ps.	423
Net interest on net defined benefit liability		187		98		285
Net periodic benefit cost	Ps.	451	Ps.	257	Ps.	708

	2016					
	Retirement benefits		Termination benefits		Total	
Analysis of net periodic benefit cost:						
Current year service cost	Ps.	240	Ps.	132	Ps.	372
Net interest on net defined benefit liability		159		86		245
Net periodic benefit cost	Ps.	399	Ps.	218	Ps.	617

b) An analysis of changes in the Company's net defined benefit liability is as follows:

	Retirement benefits		Termination benefits		Total	
Net defined benefit liability:						
Net defined benefit liability as at 31 December 2015	Ps.	1,199	Ps.	-	Ps.	1,199
Remeasurements of net defined benefit liability		-		2,182		2,182
Current year service cost		132		240		372
Interest cost		86		159		245
Benefits paid		(108)		-		(108)
Actuarial (gain)/loss		8		(131)		(123)
Net defined benefit liability as at 31 December 2016		1,317		2,450		3,767
Remeasurements of net defined benefit liability						
Current year service cost		264		159		423
Interest cost		187		98		285
Benefits paid		(194)		-		(194)
Actuarial (gain)/loss		227		(56)		171
Net defined benefit liability as at 31 December 2017	Ps.	1,801	Ps.	2,651	Ps.	4,452

c) An analysis of the net defined benefit liability is as follows:

	2017		
	Retirement benefits	Termination benefits	Total
Provisions for:			
Vested benefit obligation	Ps. 1,801	Ps. 2,651	Ps. 4,452
Defined benefit liability	Ps. 1,801	Ps. 2,651	Ps. 4,452
	2016		
	Retirement benefits	Termination benefits	Total
Provisions for:			
Vested benefit obligation	Ps. 1,317	Ps. 2,450	Ps. 3,767
Defined benefit liability	Ps. 1,317	Ps. 2,450	Ps. 3,767

d) The key assumptions used in the actuarial study, expressed in absolute terms, were as follows:

	2017	2016
Financial assumptions:		
Discount rate	7.75%	7.64%
Expected salary increase rate	4.00%	4.00%
Inflation rate	3.50	3.50
Biometric assumptions:		
Mortality rate	EMSSA 2019	EMSSA 2009
Disability	IMSS 97	IMSS 97

As at 31 December 2017 and 2016, the Company does not have any material contingent liabilities for employee benefits.

13. Employee Benefits

As at 31 December 2017 and 2016, the Company has recognized accrued liabilities for short-term employee benefits. An analysis is as follows:

	Balance as at 31 December 2016	Increases for the year	Charges	Balance as at 31 December 2017
Paid annual leave	Ps. 1,310	Ps. 2,548	Ps. 2,298	Ps. 1,560
Vacation premium	2,408	4,334	4,454	2,288
Gratification	-	1,482	-	1,482
Employee profit sharing payable	3,787	279	3,658	408
	Ps. 7,505	Ps. 8,643	Ps. 10,410	Ps. 5,738

14. Accounts Payable and Accrued Liabilities

An analysis of the Company's accounts payable and accrued liabilities is as follows:

	2017	2016
Suppliers and accounts payable	Ps. 306,926	Ps. 319,974
Rent payable	79,023	92,684
Provisions and accrued liabilities	56,619	17,464
Total	Ps. 442,568	Ps. 430,122

The above-mentioned provisions represent expenses incurred in 2017 and 2016 or services contracted during these years that are to be paid in the following year. There is uncertainty as to both the final amounts payable and the timing of the Company's cash outlay and thus, the amounts shown above may vary.

15. Equity

a) An analysis of the Company's share capital as at 31 December 2017 and 2016 is as follows:

Share capital	Shares	Amount
Fixed minimum	4,774,486,209	Ps. 35,000

- b) The Company's share capital is variable, with an authorized fixed minimum of Ps.35,000, represented by 4,774,486,209 common registered shares with no par value; all of the Company's shares are issued and outstanding.
- c) As at 31 December 2017, the Company had treasury shares comprised of 1,474,486,209 Series B-1 shares for subsequent reissuance in terms of the Mexican Securities Trading Act.
- d) At an extraordinary shareholders' meeting held on 28 April 2016, the shareholders approved the conversion of all of the Company's common registered Series "L" shares with limited voting rights and common registered Series "A" and "AA" shares, all with no par value, into common registered Series "B-1" shares with no par value. The shareholders received one Series "B-1" share for every Series "L", "A" or "AA" share that they redeemed.
- e) In accordance with the Mexican Corporations Act, the Company is required to appropriate at least 5% of the net income of each year to increase the legal reserve. This practice must be continued each year until the legal reserve reaches 20% of the value of the Company's share capital. The legal reserve is recognized as part of retained earnings. As at 31 December 2017 and 2016, the Company's legal reserve is Ps.3,359.

- f) Earnings distributed in excess of the Net taxed profits account (CUFIN) balance will be subject to the payment of corporate income tax at the statutory rate at that time. The payment of this tax may be credited against the Company's current income tax.
- g) As a result of the 2014 Mexican Tax Reform, dividends paid to foreign individuals and corporations from earnings generated as of 1 January 2014 shall be subject to an additional 10% withholding tax.

16. Income Tax

a) Income tax

The Mexican Income Tax Law (MITL) establishes a corporate income tax rate for Mexico of 30% for 2017.

- b) An analysis of income tax recognized in the statement of comprehensive income for the year ended 31 December 2016 2017 is as follows:

	2017	2016
Current year income tax	Ps. 688,644	Ps. 534,516
Deferred income tax	(540,597)	(638,033)
Total income tax	Ps. 148,047	Ps. (103,517)

- c) A reconciliation of the Company's net deferred income tax assets and liabilities is as follows:

	2017	2016
As at 1 January	Ps. (10,459,558)	(9,854,818)
Deferred income tax recognized in the income Statements	540,597	638,033
Deferred income tax recognized in other comprehensive Income	182,894	(606,624)
Deferred income tax reclassified to retained earnings	(492,582)	(636,149)
As at 31 December	Ps. (10,228,649)	Ps.(10,459,558)

- d) A reconciliation of the statutory corporate income tax rate to the effective income tax rate recognized by the Company for financial reporting purposes is as follows:

	2017	2016
Statutory income tax rate	30%	30%
Effect of reconciled items:		
Taxable effects of inflation	(82)	(25)
Property and equipment, net	25	7
Non-deductible items	(1)	(1)
Other items	1	(1)
Effective income tax rate	(27)%	10%

e) An analysis of the effect of temporary differences giving rise to deferred tax assets and liabilities is as follows:

	2017	2016
Deferred tax assets:		
Provisions and accrued liabilities	Ps. 17,811	Ps. 5,959
Rent payable to individuals	11,385	16,716
Amortized cost	1,640	2,372
Employee benefits	1,721	2,252
Retirement benefits	1,336	1,130
Tax losses	1,805	63
Total deferred tax assets	35,698	28,492
Deferred tax liabilities:		
Property and equipment, net	204,217	233,080
Surplus from revaluation of assets	10,043,447	10,226,431
Rent paid in advance	16,168	27,451
Prepaid expenses	515	1,088
Total deferred tax liabilities	10,264,347	10,488,050
Deferred tax liability, net	Ps. 10,228,649	Ps. 10,459,558

f) For the years ended 31 December 2017 and 2016, the Company reported taxable income of Ps.2,295,480 and Ps.1,781,720, respectively, on which income tax payable was Ps.688,644 and Ps.534,516, respectively.

g) Consolidated tax losses pending amortization

Consolidated tax losses may be amortized against future profits, within a period of ten years. For these purposes, they are updated according to the LISR. As of 31 December 2017, the consolidated fiscal losses of the Company are as follows:

Year of tax loss	Amount of the losses updated	Expiration Date
2016	Ps. 6,005	2026
2017	12	2027
	Ps. 6,017	

h) As at 31 December 2017 and 2016, the Company had the following tax balances:

	2017	2016
Restated contributed capital account (CUCA)	Ps. 39,194	Ps. 36,708
Net taxed profits account (CUFIN)	11,029	10,329

17. Contingencies and Commitments

Since 2013, the Mexican government has been formulating a new regulatory framework for the country's telecommunications and the broadcast sectors. This new regulatory framework is based on a set of constitutional reforms that were enacted in June 2013, which took effect in July 2014, and which led to the enactment of a new Federal Telecommunications and Broadcasting Law and Mexican Public Broadcasting System Law to replace the existing regulatory framework.

The IFT was created as an independent agency tasked with promoting and regulating access to Mexico's telecommunications and broadcast infrastructure (including passive infrastructure).

The IFT also has the power to oversee fair competition in the telecommunications and broadcast sectors by imposing asymmetric regulations on sector participants that it deems market dominant and it may also declare that a company is a so-called "preponderant economic agent" in either of these two sectors.

In March 2014, the IFT issued a ruling (the Ruling) through which it declared that America Movil and Telcel, together with others market participants, represented an "economic interest group" that is a so-called "preponderant economic agent" in the telecommunications sector. The IFT ordered America Movil and Telcel to take specific actions to force both companies to grant access to and to share their passive infrastructure with other carriers. Telcel's passive infrastructure includes new tower space, as well as space on towers where telecommunications equipment is already installed.

The Federal Telecommunications and Broadcasting Law that was published in July 2014 states that the IFT shall be tasked with promoting the execution of agreements between asset owners and customers in order for the former to provide access to this passive infrastructure to the latter. Whenever the negotiations surrounding these agreements prove unsuccessful, the IFT may intercede to determine the pricing and the terms of the commercial agreements. The IFT also has the power to regulate the terms of passive infrastructure agreements between assets owners and their customers, and it may assess the agreements in terms of fair competition and take actions to ensure that the terms and conditions for the use and sharing of the passive infrastructure are non-discriminatory.

In February 2017, the IFT published a "Biennial Resolution" through which measures were modified, deleted and added" to the Resolution ("the Biennial Resolution"), modifications that in the case of passive infrastructure, can be considered as minor or of little relevance.

Reference Offer

In the terms of the Resolution and the new legal framework, two Reference Offers ("Offer") were prepared; a first effective as of 31 December 31 2015 and the second with a validity as of 31 December 31 2017, for the former Opsimex as the successor of Telcel and owner of the passive infrastructure is required to comply with the Resolution.

In terms of the Biennial Resolution, a new Offer is currently in force, which was duly approved by the IFT in December 2017, which will be in force during the period from 1 January to 31 December 2018, under the terms of the current Offer, interested operators must sign a Framework Agreement, as well as individual agreements per site, the duration of which will be for a mandatory minimum term of 10 years. It is worth mentioning that, in accordance with the Biennial Resolution, the Company will present in the month of July of each year, for IFT approval, a new offer proposal, which will take effect on January 1 of the year following its presentation, with In addition to the foregoing, the operators may agree to sign the Offer with a duration longer than the validity of the respective Offer.

Towers and Antennas

The Company is subject to regulatory requirements regarding the registration, zoning, construction, lighting, demarcation, maintenance and inspection of towers, as well as land-use restrictions for the land on which the Company's towers are located. Failure to comply with these regulations may lead to fines for the Company. The Company believes that it complies substantially with all applicable regulations.

18. Segment Information

The Company has passive infrastructure installed throughout Mexico and in various points abroad. Its principal business segment is leasing this infrastructure. At the reporting date, the Company's business is geographically divided into the following nine regions:

Region	Mexican states	2017		2016	
		Infrastructure rental revenue	Lease expense	Infrastructure rental revenue	Lease expense
1	Baja California Sur and Baja California	Ps. 279,847	Ps. 102,777	Ps. 248,470	Ps. 98,714
2	Sinaloa and Sonora	402,059	110,083	371,751	117,017
3	Chihuahua and Durango	270,786	82,380	237,772	67,073
4	Nuevo Leon, Tamaulipas and Coahuila	689,065	189,609	615,434	196,537
5	Jalisco, Michoacan, Colima and Nayarit	662,764	213,085	605,630	210,763
6	Queretaro, Guanajuato, San Luis Potosi, Aguascalientes and Zacatecas	671,966	233,071	625,165	233,409
7	Puebla, Veracruz, Oaxaca and Guerrero	860,934	273,719	800,772	272,573
8	Yucatan, Campeche, Tabasco, Chiapas and Quintana Roo	603,134	176,216	554,804	171,545
9	Hidalgo, Morelos and Mexico City	1,146,535	449,017	1,080,988	350,212
	Total	Ps. 5,587,090	Ps. 1,829,957	Ps. 5,140,786	Ps. 1,717,843

Region	Other foreign locations	2017		2016	
		Infrastructure rental revenue	Lease expense	Infrastructure rental revenue	Lease expense
1	Costa Rica	Ps. 78,625	Ps. 33,721	Ps. 39,093	Ps. 16,308
	Total foreign locations	Ps. 78,625	Ps. 33,721	Ps. 39,093	Ps. 16,308
	Total	Ps. 5,665,715	Ps. 1,863,678	Ps. 5,179,879	Ps. 1,734,151

19. Subsequent Events

During the months of January and February 2018, the Company paid interest corresponding to series 1 OSM-15 in pesos, series 2 OSM-152 in pesos and series 3 OSM-15U Udis for an amount of Ps.391,243, Ps.56,805 and Ps.189,913, respectively.

On 23 February 2018, the Company renewed the short-term debt for the totality of the two bank loans it had contracted with BOFA, for an amount of USD 24,000, with a new maturity of 23 February 2023, at an annual interest rate equivalent to 4.52%.
